

## HURRICANE PREPAREDNESS

At USF, hurricane preparedness is not limited to a specific season. Emergency Management and the National Weather Service consistently monitor weather conditions, especially in the tropics, to stay ahead of potential storms. This proactive approach allows them to gather real-time information and make timely decisions to protect our community.

Emergency Management also places great emphasis on engaging and informing community members about hurricane preparedness. Everyone must understand their roles and responsibilities during a storm. Through regular meetings and training sessions, EM emphasizes the importance of being prepared and having the necessary training for essential personnel.

Year-round efforts and dedication to training and awareness empower our community to face any hurricane season with confidence. Make sure to download the [Hurricane Guide](#) to keep you and your household safe and prepared.

## NEW FENCE SCREENS

New fence screens were installed in several locations around campus! You can find them at the Central Plant, in the field by the Post Office, at the lift station by the Police Department, and the pump house by Castor Beach.

The new screens not only offer practical benefits, but also enhance the aesthetic appeal of our campus with vibrant designs.

## EMPLOYEE PROFILE

### GREG LEWIS

SAFETY AND COMPLIANCE OFFICER  
ENVIRONMENTAL HEALTH AND SAFETY

Greg joined OAS over 25 years ago as a storekeeper. His current position is Safety and Compliance Officer.

His daily responsibilities involve emergency maintenance and ensuring the proper functioning of facilities and equipment around campus. As part of his duties, Greg manages flood situations, tackles water-related problems, and takes steps to prevent mold growth.

He also responds to air quality complaints, conducts tests to identify any problems with air handlers, and collaborates with contractors and laboratories to conduct additional analyses. Due to the unpredictable nature of his

job, Greg must be adaptable and ready to deal with any changes or emergencies that may arise.

Greg's favorite part of working at OAS is the opportunity to learn new things every day and actively engage in problem-solving to ensure the safety and well-being of others. His advice to new employees is to get involved with the USF community and meet new people. He is thankful for his coworkers and says OAS is a great place to make lifelong friends.

Greg was born in Trinidad and Tobago and moved to Florida to study Commercial Arts when he was 18. Outside of work, he enjoys going to the gym, watching Marvel and martial arts movies, and listening to R&B, pop, reggae, and soca.

## WE WANT YOUR FEEDBACK!

Fill the online form at [tinyurl.com/OASfeedbackform](https://tinyurl.com/OASfeedbackform) or drop a paper in one of the "excellence box" locations!

# POPSICLE POP-UP!

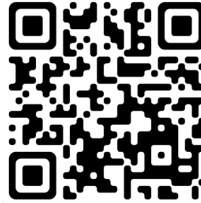

Summer is here! We're celebrating the season with a Popsicle Pop-Up with the Employee Engagement Team! From July 24 to 27, the EET will be visiting OAS departments and bringing icy treats for you to enjoy.

<b>Monday, July 24</b>	Grounds, Vehicle Shop, Maintenance, Utilities, SCM, and FPC/OPM
<b>Tuesday, July 25</b>	ASBC
<b>Thursday, July 27</b>	UPD, PATS, Building Services

Locations will be announced via email.
